ICR B80

Stereo Voice Recorder/MP3 Player/Data Storage Device

The ICR B80 is a multi purpose digital notetaker with the ability to playback MP3 / WMA music and store data files directly from your computer. A very useful tool for business and leisure.

Using a direct USB connection (no cable required), transfer your recordings to your PC where they can be played in Windows Media Player, stored for later use, or sent by email.

Drag and drop data files from your computer to the **ICR B80**, providing a portable storage solution for all your Word documents, PowerPoint presentations, Excel spreadsheets or any other data you need to take with you for use at your destination.

Connect external stereo speakers or a stereo headset directly to the **ICR B80** and listen to your voice recordings or enjoy your music on the move.

This compact device features a 64Mb internal memory providing up to 4 hours of voice recording or over an hour of MP3 music.

The stylish LCD display provides an easy way to navigate through the settings of the **ICR B80** and retrieve stored information quickly, giving you total control.
